

*A rare opportunity to acquire
a complete collection
of the coinage of the Lasqueti Mint*

1090. The interesting and eclectic story of the Lacqueti Mint on Lasqueti Island, British Columbia has been well documented over the years. From 1997 through 2009 a total of fifty-nine coins have been minted, and subscribers were able to purchase coins each year. All of the issues are small, generally ranging from a few dozen coins to a few hundred. A very few collectors purchased each and every issued copper, bronze, silver and gold coin. MOORE's is very pleased to be able to offer the collection assembled by subscriber #9. The collection contains every Uncirculated and Proof striking, and is composed on four copper or bronze, thirty-eight silver and seventeen gold coins. Also included, nine special wooden boxes and official Lasqueti certificates as well as detailed literature on the Lasqueti Mint. The selection of themes for the coins has indeed been inspired, the engraving exceptional and the production of the highest standards. (The cataloguer must admit a clear prejudice since the Lasqueti Mint struck a convention piece for me in 2007 when I was President of the C.N.A.). The successful purchaser will also have the opportunity to continue as subscriber #9, and purchase future Lasqueti issues..... 25,000.00
